CALL FOR PAPERS
The 22nd International Conference on Computer Communications and Networks (ICCCN 2013)
July 30 – August 2, 2013
Nassau, Bahamas
http://www.icccn.org/icccn13/

ICCCN is one of the leading international conferences for presenting novel ideas and fundamental advances in the fields of computer communications and networks. ICCCN serves to foster communication among researchers and practitioners with a common interest in improving communications and networking through scientific and technological innovation. ICCCN is technically co-sponsored by the IEEE Communications Society. The Proceedings of the ICCCN 2013 has already been accepted in the IEEE Conference Publication Program. Each accepted paper must be presented at the conference or workshops by one of the authors.

Scope:
The primary focus of the conference is on new and original research results in the areas of design, implementation, and applications of computer communications and networks. Topics of interest include, but are not limited to, the following:

- Communication and Information Theory
- Networking for Sustainability and Energy Efficiency
- Network Science and Social Networks
- Internet Services and Applications
- Multimedia, QoS and Traffic Modeling
- Network Architecture and Clean-Slate Designs
- Grid and Cloud Computing
- Cognitive Radio Networks
- Network Algorithms and Performance Evaluation
- Security, Privacy and Trust
- Sensor Networks, Embedded Systems, and Pervasive Computing
- Wireless Ad Hoc and Mesh Networks
- Wireless LAN, Cellular, and Heterogeneous Networks
- Wireless Communication

Instructions for Authors:
Submitted manuscripts must be formatted in standard IEEE camera-ready format (double-column, 10-pt font) and must be submitted via EDAS (http://edas.info/) as PDF files (formatted for 8.5x11-inch paper). The manuscripts should be no longer than 7 pages. Up to two additional pages are permitted if the authors are willing to pay an over-length charge at the time of publication (manuscripts should not exceed 9 pages). Submitted papers should not be previously published in or be under consideration for publication in another journal or conference. The Program Committee reserves the right to not review papers that either exceed the length specification or have been submitted or published elsewhere. Submissions must include a title, abstract, keywords, author(s) and affiliation(s) with postal and e-mail address(es). A paper abstract must be registered on EDAS by the deadline indicated below.

Review and Publication of Manuscripts:
Submitted papers will be reviewed by the TPC and judged on originality, technical correctness, relevance, and quality of presentation. An accepted paper must be presented at the conference venue by one of the authors registered at the full registration rate. Each full registration covers up to two papers by an author. Accepted and registered papers will be published in proceedings of the ICCCN 2013 that has already been accepted in the IEEE Conference Publication Program. Accepted papers must be presented at the conference or workshops by one of the authors. Papers of special merit will be selected for possible fast track publication in the Computer Communications (COMCOM) journal.

Workshops:
The conference will feature a number of interesting satellite workshops on Monday, July 30. Workshop proposals should be submitted to the Workshop Chairs (ksha@okcu.edu, striegel@nd.edu). The details on the call for workshop proposals can be found on the conference web site. For any question or additional information please contact the General and TPC Chairs.

Important dates:

General Chairs: George Rouskas, North Carolina State University, USA

Program Chairs: Fan Zhai, Texas Instruments, USA
Christian Poellabauer, University of Notre Dame, USA

Workshop Chairs: Kewei Sha, Oklahoma City University, USA
Aaron Striegel, University of Notre Dame, USA
